SELF-ASSESSMENT TOOL: INTRODUCTION

INTRODUCTION TO THE SELF-ASSESSMENT TOOL

Use the *Guide*, along with this Self-Assessment Tool, to evaluate technical assistance skills and to identify areas of both strength and opportunity in your work with clients. Some TA providers may want to expand the services they offer and use this tool to identify how to enhance their skills in one or more of the specialized age groups and settings. Then, develop goals for your work and plan your professional development (PD). Clients can use this tool to help others identify TA that will best meet their own needs. **The Self-Assessment Tool is designed to assess skills. To find the knowledge indicators that link to the skills assessed in the Self-Assessment Tool, refer to the Guide. Example: to find the knowledge indicator linked to the skill OST 3.2-S3, go to the OST section of the Guide and look under Subdomain 3.2-K3.**

INSTRUCTIONS:

1) IDENTIFY APPROPRIATE SECTION TO COMPLETE

Like the *Guide*, the Self-Assessment Tool is organized into four main sections: Section 1 includes skills that apply to all TA providers, while Sections 2, 3, and 4 assess skills specific to age groups and settings. While all TA providers should complete *Section 1*, they can choose to complete *Sections 2: Infants Toddlers and Their Families*, *Section 3: Preschool*, and/or *Section 4: Out-of-School Time*, depending on clients or area of expertise. Use the approach that best supports your own practice.

2) ASSESS

Carefully read through the skill indicators at the Subdomain level. For each competency skill statement consider overall ability in determining if the skill is: **Beginning (1) or demonstrates rarely; Developing (2) or demonstrates occasionally; or Proficient (3), demonstrates consistently.**

3) REFLECT AND PLAN

TA providers have a wealth of knowledge and skills. Incorporating new competencies will drive quality in TA and ultimately the quality of client programs. Use the **Reflection Questions** at the end of this tool to identify your strengths and areas of opportunity. You may find it helpful to reference the *Guide* to identify the knowledge indicators that support skill development. Use the **PD Planning Tool** to select goals, plan for needed resources or professional development, and establish a timeframe for meeting the goals. The *Action Steps for Professional Growth and Development* will help you develop a plan for acquiring new knowledge or for strengthening identified skills. While the Skill indicators from the main *Guide* are included in this Self-Assessment Tool, the related Knowledge indicators are not. Keep track of your thoughts as needed on the Summary Page after completing each section.

SELF-ASSESSMENT TOOL: GOAL SETTING AND ACTION STEPS

INSTRUCTIONS:

1. Review the Summary Pages and your assessment results. Which of the Domains and Skills are strengths for you? What has contributed to your effectiveness in these areas?
2. How do you plan to further develop your strengths or enhance your knowledge and skills in these areas? (Refer to the *Guide* to find the knowledge indicator that accompanies each skill.)
3. Which Domain, Subdomain and Skills Indicators represent opportunities for PD? Prioritize them in order of importance to you?
4. Select a priority area to work on. Why is this priority important to you and your work with clients?

My Priority Domain _____

Subdomain Area _____

Skills Indicators _____

5. Develop two goals related to this priority. Hint: Use the Knowledge Indicators in the *Guide* related to the Skill you prioritize. For example, if your top priority is to strengthen collaborations and service networks (Section 1/Domain 2/Subdomain 2.4), you might have the following goals: 1) To build knowledge of existing services and organizations that support settings serving infants and toddlers preschool, and out-of-school care and 2) To understand the process by which clients can connect to existing services and contribute to organizations to support their work with children and families)
